TEK-CRETE™

Urethane Concrete

SEAMLESS • SANITARY • SAFE

Tek-Crete

is the superior seamless alternative to acid brick, quarry tile and other flooring surfaces that tend to crack at mortar joints due to thermal cycling. These dissimilar building materials expand and contract at different rates, causing cracks. Tek-Crete is designed to be stress relieving during thermal expansion and contraction - a major advantage when crack resistance and dimensional stability are important.

Cracks also create a home for unwanted micro-organisms. Tek-Crete is anti-microbial so it is superior wherever health and cleanliness are a priority. Cracks also provide an avenue for chemical and water intrusion. Tek-Crete prevents the migration of water and aggressive chemicals that attack the substrate and eventually may pollute the environment.

Tek-Crete also offers unequalled resistance to impact and corrosion from the most aggressive chemical environments. When daily cleaning with live steam, pressure washing or industrial cleaners are required, you can find no better choice than Tek-Crete.

Big Oyster Brewery

Product System:

Tek-Crete SLB with
Aero-Flor 250 Pigmented
1,400 sq ft

Contractor:

Seamless Flooring
Systems, Inc.
urethanecement.com

“Working with the guys at Seamless Flooring Systems was the best decision we could have made for our brewery floor. Brewers are obsessed with floors because they are so important to maintaining a clean, efficient, safe, and durable work environment. I’m happy to say that when people come into our brewery they always comment on our cleanliness, and we owe a lot of that to choosing the right floor and installer.”

– **Andrew Harton**, *Head Brewer*

Big Oyster Brewery

Lewes, DE

Four Sons Brewing

Product System: Tek-Crete
4,500 sq ft

Contractor: Lennova
LennovaUSA.com

“My flooring experience with Dex-O-Tex and Lennova was a positive one. They worked very well together and the customer service was second to none. I appreciate the level of professionalism and the cohesion between the contractor and supplier. We were extremely pleased with the quality of the installation by Lennova, as well as the performance of the Tek-Crete urethane cement. I would recommend this team for all of your resinous flooring needs.”

– **Duke Dufrense**, *President*

Almanac Brewery

Product System:

Tek-Crete and Posi-Tred O
6,000 sq ft

Contractor:

Polytech Industrial, Inc.
Polytechfloors.com

“Polytech accomplished an amazing epoxy floor on my Almanac Brewery job in Alameda California. From day one I knew we selected the right contractor. Their crews work in a constant rhythm. With a large crew each man knows exactly what to accomplish, and when, during the entire process. Finished product was perfect with no complaints from anyone involved with the project. From start to finish, it was all very professionally managed. A general contractor’s perfect sub.”

– Byron Nobriga
