

DEX-O-TEX, A division of Crossfield Products Corp.

R – Recommended for Secondary Containment (72 Hour Exposure with Proper Clean Up).

S – Recommended for Intermittent Contact, Splash and Small Spills, without puddling or covering, coupled with proper cleanup. Not Recommended for Immersion or Fumes, proper housekeeping required to clean up spills

F – Fumes only, Not Recommended for Other Exposures

N – Not Recommended.

D – Discoloration including dyeing, blemishes, loss of gloss, spotting, staining, tarnishing, etc. may occur. Discoloration and its variations may not affect functional performance.

T – Testing may be required, consult Crossfield Products Corp. prior to specification, installation or exposure

CHEMICAL RESISTANCE CHART

ASTM D 1308, 75°F/50% RH
